Cedar Lake Iris Gardens

Lucille Cusic, Owner

Colville, Washington

FOREWORD

It is Iris time once again. With this, our fourth catalog, we wish to greet our many friends and customers and those of you whom we hope to serve in the coming years. The Iris is truly the "Queen of the flower garden, a rainbow come to earth." It is with both pride and pleasure that we offer you many new additions to our list.

Visitors to the gardens are more than welcome. Our blooming season is one of the latest, because we are located in the mountains, near the Canadian border. Peak bloom is usually reached the second week in June. You will find our gardens about thirty-six miles north of Colville, between Deep Lake and Cedar Lake. Come if you can and see six acres in bloom. Iris collecting is our hobby. We are growing many of the older Iris here and many of the very latest Iris that are not listed in our catalog. In all, we have collected about 3000 varieties.

We are happy to be able to list in our catalog this year, some of the newer Iris from Mrs. Melvina Suiter, Route 5, Caldwell, Idaho. Mrs. Suiter is a hybridizer who has been going quietly about the work of creating many beautiful new introductions and seedlings that are outstanding for their color or color combinations, for their ruffling, lacy edges, satin texture, height, heavy substance or a combination of several of these qualities. Write her for a complete list of her introductions.

The Iris is a hardy plant and can stand more neglect than most flowers. But it does respond to good care. The ideal location for Iris is a sunny, well-drained position. They require at least a half day of full sun and resent continued "wet feet." Iris rhizomes will grow after being out of the ground for long periods of time. The green fans may wither away and the roots dry up but the bulb is capable of growing replacements. In fact, if an Iris is transplanted directly from one location to another, they appear to sit there and sulk for quite a while before beginning growth. But if they are out of the ground for several days or longer, they appreciate their new location and are conditioned to start growth immediately.

All Iris rhizomes are not alike, some are naturally large while others are very small. The size of the rhizome has nothing to do with the size of the blossoms. Wm. Mohr's bulb is no larger than the end of a woman's thumb, yet it has very large flowers. The rhizome matures about a month after blooming season and continues to grow in size until fall. The later in the summer that an Iris is transplanted the more likely it is to bloom the first year.

WE PAY THE POSTAGE! Postal rates are climbing higher all the time but we still plan on paying all the postage. We want to make these beautiful Iris available, without penalty, to those who have limited space or limited money to spend on flowers. Our prices are based on the number of each variety we have to sell.

OUR DIGGING AND SHIPPING SEASON WILL START THE 20TH OF JULY and will continue until the last of September. We cannot make any earlier shipments, because of our later blooming season. As far as possible, orders are filled in the order in which we receive them unless a later date is specified. To insure as early a shipment as possible, make your selections now and place your order early. We ship only top quality rhi-

zomes, freshly dug, clean, labeled and well packed. Our gardens are state inspected. We are a member of the American Iris Society and the British Iris Society.

Growing conditions in your locality are beyond our control. We cannot replace any Iris lost due to winter kill. But if the loss occurs and we are notified before the 1st of October of the year of delivery, we will try to make it right with you. We guarantee our plants to be true to name. We like to do business with flower lovers. We have found them to be reasonable and appreciative class of people. During the last four years we have shipped Iris to all 48 states and to Canada and Alaska.

BONUS IRIS. We like to be generous with extra Iris as gifts. If your order is under \$5 we will select your bonus Iris for you. On orders between \$5 and \$10, you may choose 10% of the total in free Iris. On orders of \$10 or over you select 15% of the total in free Iris. This is not a cash discount, but a bonus of free Iris.

If you are a beginner in Iris collecting and want a lot of varieties for your money, you may choose 20 of the following Iris for \$4 or send us \$3.50 and we will choose 20 for you from this list and from other named varieties. All Iris will be labeled. Descriptions are in the catalog.

Alta California	Folkwang	Persia
Ariane	Gloriole	Picador
Barbarian Maid	Grand Canyon	Princess Beatrice
Birchbark	Great Lakes	Rameses
Blue Peter	Indian Chief	Rosario
Blue Rhythm	Kochii	Salar

Crown Jewel	Nightfall	Starwood
Deep Waters	Ola Kala	Sunmist
Destiny	Oregon Trail	Tokay
Dog Rose	Orloff	Torch Song
Eros	Ozone	Treasure Island
Euphony	Patricia Joyce	Wabash
	Paulette	

If you are an Iris collector and are interested in the older, hard to find varieties of bearded Iris that are no longer in commerce, send 10 cents in coin or stamps for our list. This list will be available about the first of June.

A lot of research has been done to compile this catalog. You will be doing everyone concerned a favor, when you are through ordering, if you loan this list to a friend, a neighbor or a relative. Or give them the address and they may send for a catalog of their own.

WASHINGTON RESIDENTS PLEASE INCLUDE SALES TAX

IRIS LIST FOR 1959

ADMIRAL NIMITZ (Graves '48) A splendid white with thick gold beard.	\$.45
ADVANCE GUARD (Mitchell '45) White, with edges of petals stitched and dotted in light blue.	.35
